Information to Authors

The Current Trends in Biotechnology and Pharmacy is an official international journal of Association of Biotechnology and Pharmacy. It is a peer reviewed quarterly journal dedicated to publish high quality original research articles in biotechnology and pharmacy. The journal will accept contributions from all areas of biotechnology and pharmacy including plant, animal, industrial, microbial, medical, pharmaceutical and analytical biotechnologies, immunology, proteomics, genomics, metabolomics, bioinformatics and different areas in pharmacy such as, pharmaceuticals, pharmacology, pharmaceutical chemistry, pharma analysis and pharmacognosy. In addition to the original research papers, review articles in the above mentioned fields will also be considered.

Call for papers

The Association is inviting original research or review papers and short communications in any of the above mentioned research areas for publication in Current Trends in Biotechnology and Pharmacy. The manuscripts should be concise, typed in double space in a general format containing a title page with a short running title and the names and addresses of the authors for correspondence followed by Abstract (350 words), 3 – 5 key words, Introduction, Materials and Methods, Results and Discussion, Conclusion, References, followed by the tables, figures and graphs on separate sheets. For quoting references in the text one has to follow the numbering of references in parentheses and full references with appropriate numbers at the end of the text in the same order. References have to be cited in the format below.
